BRAND

DESCRIPTION

This heavy duty ZVA Slimline 2 Automatic Nozzle is designed to shut off when the fuel tank is full and prevents overspill, due to it's high quality this nozzle is approved for refuelling in resale pumping applications and also flammable environments.

Due to their slimline spout, these diesel and petrol nozzles are ideal for both domestic and commercial vehicle refuelling at a maximum flow rate of 55 litres per minute. This is also supplied with a trigger guard for safety and robustness.

ZVA are well known brand of nozzles used in commercial forecourts, recognised for their durability and ease of use.
