DESCRIPTION

The Piusi Bi-Pump portable diesel transfer pump is powerful and reliable and is designed for high flow diesel transfer and mobile refuelling up to 85lpm. The Bi Pump battery powered diesel dispensing pump is essentially two BP3000 self-priming, rotary vane 24 or 12v diesel transfer pumps put together, to provide a greater flow rate. Thanks to its refilling speed and its low voltage, this Piusi diesel pump is designed for refuelling large agricultural vehicles and plant equipment in off-road applications where mains power may be unavailable.

This battery powered DC diesel refuelling pump benefits from a sturdy industrialised construction, incorporated bypass valve, IP55 protection rating and an on-off switch.

FEATURES

- 2 x BP3000 diesel fuel transfer pumps
- Sintered steel rotors & acetal resin vanes
- Incorporated bypass valve
- Cable & clips 2 and 4 mtr options (on selected models)
- Protection grade: IP55
- Available in 12v/24v
- Self priming battery powered diesel transfer pump
- Cast iron pump body
- Flow rate: 85ltr Per Min
- 30min duty cycle
- Optional carry handle
