DESCRIPTION

The Piusi Cube 56 electric diesel transfer pump is an Italian manufactured, market leading refuelling pump developed for the distribution of diesel fuel for non-commercial, private uses. This fully enclosed, Piusi electric fuel transfer pump unit comes complete with meter, nozzle and hose, allowing the fast, safe refuelling of vehicles, as well as the measuring of the quantities of fuel dispensed. The incorporated fuel flow meter in this Piusi pump has a well-constructed mechanical display with a proven track record in reliability and ease of use. This diesel fuel transfer pump also has an in-built nozzle holder with pump start lever and automatic pump off function when the nozzle is returned, making operation an easy process. Simple and versatile, Cube 56 diesel transfer pumps can be installed directly onto a drum or fuel storage tank, thanks to the optional 2" quick coupling, or can be mounted freestanding using a pedestal. There is also a wall support kit available to enable the fitting of this Piusi fuel dispenser onto a wall or side of a bunded fuel tank.

FEATURES

- Fully enclosed fuel dispenser
- Mechanical seal & incorporated bypass valve
- 3 digit flow meter
- Nozzle holder with pump start/stop lever
- Available in 230v / 12v / 24v
- Panther 56 diesel transfer pump
- Flow Rate: 56ltrs Per Min
- Automatic nozzle & 4m x 3/4" delivery hose
- Protection grade: IP55 (Internal Motor)
- Various mounting options available
