## DESCRIPTION

New from Piusi is the EX50 ATEX approved 230v or 12v fuel transfer pump, which has taken our product range into the market for flammable liquids. Designed for the mobile and static transfer of petrol, kerosene and diesel in a zone one environment, these ATEX pumps satisfy the European directives for explosion proof equipment. This petrol transfer pump has a sturdy, cast iron body, and thanks to its quality manufacturing has a long life span. Incorporated in the 230 and 12 volt fuel transfer pump body is an integrated bypass valve.

These ATEX pumps are available in mains or low voltage, and are also available as part of a drum kit that comes with drum connector and nozzle holster.

Please note: Power cables & connectors are dependant upon the individual site risk assessment for the connection method between the ATEX Piusi pump and power source.

## FEATURES

- Explosion proof kerosene, diesel and petrol transfer pump
- Maximum flow rate: 50ltr Per Min
- Anti-noise filter
- ATEX pump certified for Zone 1
- Suitable for AVGAS, AVJET A1, Aspen 2, Aspen 4 & petrol with 15% ethanol blend
- Integrated bypass valve
- Duty cycle: 30 min on/ 60 min off
- Cast iron construction
- Available in 12v and 230v
