## DESCRIPTION

The Piusi K700 Fuel Pulse Meter counts the amount of dispensed diesel and anti-freeze through an oval gear system at a maximum flow rate of 250lpm. These Piusi diesel pulse meters do not give the user a reading, as they are usually used with an external system or display, when the amount of fluid used needs to be retrieved elsewhere. The K700 fuel flow meter with pulse output is ideal for industrial use and the private distribution of fluids.

## FEATURES

- Flow rate: 25-250ltr Per Min
- Pulses: 14 Per Ltr
- Oval gear system
- Fluid viscosity: 5-5000
- 2" F BSP Flanged Inlet/Outlet
- Accuracy +/-0.5% after calibration

PART NUMBER	DESCRIPTION	SPECIFICATIONS	PRICE
P8-498000	Piusi K700 Diesel Pulse Meter	<ul style="list-style-type: none"><li>• Max Flow (lpm) - 250</li><li>• 14 pulses per ltr</li><li>• Pressure (bar)-(psi) 20-284</li><li>• Fluid Viscosity: 5-5000 cSt</li><li>• Max Fluid Temperature - +60°C</li><li>• 2" F BSP Flanged</li></ul>	£950.91
