## DESCRIPTION

This electric diesel transfer pump is the Panther 90 - a reliable, quality and versatile fuel dispensing pump made by Italian manufacturer Piusi. The Panther 90 is a compact and easy to install diesel refuelling pump, and is the new higher flow rate version in the market known Piusi Panther range. With a maximum flow rate of 90lpm, this fuel transfer pump is designed for faster filling of larger vehicles and is ideal for static fuel storage tank systems and refuelling applications.

The Panther 90 is constructed from cast iron and comes supplied with a pump head and motor, an incorporated bypass valve and 500 micron filter. The whole range of Panther diesel transfer pumps are self-priming and have an incorporated mechanical seal, to ensure the pump maintains its reliability even in low temperatures. Further features of this Panther 90 Piusi pump also include its thermal motor overload protection, IP55 protection grade and on/off switch to guarantee easy operation.

## FEATURES

- Self-priming rotary vane diesel fuel transfer pump
- Sintered steel rotor & acetal resin vanes
- Flow Rate 90ltr per min
- On/off switch
- Protection grade: IP55
- Cast iron pump body with anti-corrosion paint
- Integrated bypass valve and 500 micron filter
- 1" F BSP Flanged inlet/outlet ports
- Thermal motor overload protection
- 230v/50Hz
