## DESCRIPTION

The Piusi Panther DC portable diesel transfer pump kit is an ideal easy move, portable refuelling solution for when only battery power is available. Being 24v or 12v powered, this DC battery operated diesel fuel transfer pump has been designed for fitting to earthmoving machinery and mobile dispensers. The Piusi diesel pump comes equipped with handle, cable and clips, hose, nozzle and strainer. The handle on this portable refuelling pump enables the user to transport this pump with ease.

If you have a mixed fleet of vehicles, some that run off a 12 volt battery and some that run off 24 volt, then we offer a dual voltage model of this fuel transfer pump kit.

## FEATURES

- Self-priming diesel refuelling pump
- Sintered steel rotor & acetal resin vanes
- Mechanical seal for reliability at low temperatures
- Flow rate: 35-70 ltr Per Min (depending on model)
- 30 minute duty cycle
- 4m delivery hose
- Cable & Clips
- Available in 12v/24v
- Battery powered fuel transfer pump
- Cast iron pump body with anti-corrosion paint
- Incorporated bypass valve & 500 micron filter
- Self 2000 nozzle
- Carry handle
- 2m suction hose
- Protection grade: IP55
