DESCRIPTION

The Piusi Pitstop DC diesel transfer pump is heavy duty, fuel dispensing unit with an integrated hose reel. This Piusi pump has a sturdy supporting structure and a 14 metre hose, which makes it ideal for harsh refueling environments where it may be difficult to access the machinery or vehicles, for example quarries and large building sites. The unit is comprised of two DC Bypass 3000 fuel transfer pumps, a water filter and an automatic nozzle, which allows the dispensing of diesel at 45litres per minute over the 14 metres. This 24v and 12 volt fuel transfer pump is versatile and easy to install to both fixed or mobile tanks.

FEATURES

- Heavy duty fuel dispenser c/w hose reel
- 2 x BP3000 diesel fuel transfer pumps
- 14m x 3/4" hose with end of travel stop
- Flow Rate: 45ltrs Per Min
- Automatic nozzle c/w holster & padlock to lock in place
- 30 micron water filter
- Protection grade: IP55
- Available in 12v and 24v
