## DESCRIPTION

The Piusibox portable DC diesel transfer pump is a mobile refuelling solution in a box. This handy and practical kit includes a DC powered Bypass 3000 24 or 12v fuel transfer pump, delivery and suction hoses, locking foot valve to reduce the risk of leaking and a manual nozzle. The pro version of the Piusibox refuelling pump also comes with a particle filter and gloves for added equipment and user protection.

The easily transportable storage container is designed to protect the battery powered Piusi pump from debris and dirt, and therefore prevents fuel contamination, whilst also protecting the environment against residue from the nozzle. These portable 24v and 12v diesel transfer pumps are therefore ideal for refuelling both agricultural and plant machinery, where the application may not be as clean.

## FEATURES

- Self-priming BP 3000 diesel fuel transfer pump
- Carry/storage box c/w handle
- Incorporated bypass valve
- Flow rate: 43-45ltr Per Min (depending on model)
- Locking foot valve & strainer to prevent leakage
- Filter 10µ & protective gloves (Pro models only)
- Cable and clips (2 and 4 mtr options)
- 30min duty cycle
- Manual nozzle
- Suction/delivery Hose
- Protection Grade: IP55
- Available in 12v/24v

PART NUMBER	DESCRIPTION	SPECIFICATIONS	PRICE
