DESCRIPTION

Piusi EX50 is a complete pump transfer kit expressly engineered for ATEX/IECEX areas, and non-commercial use. It is therefore suitable for the transfer of gasoline, kerosene and diesel. It is perfect if you're looking for a solution for transferring flammable liquids from a drum. The transfer unit complies with the European ATEX directives to ensure maximum safety in its use with flammable liquids.

Piusi EX50 connects easily to drums with the 2" connector. The cast iron body makes the overall construction sturdy and compact and the installed motor is able to dispense up to 50 l/min with reduced absorption to guarantee a durable product.

FEATURES

- Explosion proof kerosene, diesel and petrol
- Available in 12v and 230v
- Maximum flow rate: 50ltr Per Min
- Duty cycle (min): 30 on/ 60 off
- C/w automatic or manual nozzle
- Optional ATEX approved flow meter

PART NUMBER	DESCRIPTION	SPECIFICATIONS	PRICE
P8-F00372010	Piusi EX50 Drum ATEX Pump Kit Automatic 12v	<ul style="list-style-type: none"> • Max flow (lpm) – 50 • Voltage - 12v • Nozzle - Automatic • Inlet – 1" F BSP • Petrol, kerosene and diesel 	£543.80
