

PRODUCT SPECIFICATION SHEET

IBC Pump Kit w/ Manual Nozzle for Dispensing DEF/AdBlue®

BRAND:

SUITABLE FOR:

FLOW RATE:

30LPM

Product Description

Self priming diaphragm pump mounted on an IBC hanging plate for dispensing DEF/Urea, also known as AdBlue®. The pump comes complete with 4m of delivery hose and 1m of suction hose, including SEC adaptor for IBC connection. These pumps are available with automatic or manual nozzle and has the option of adding an inline digital flow meter.

This economy range AdBlue pump is a cost effective way to transfer AdBlue, used in a lot of our pump kits this reliable pump can be mounted horizontally or vertically.

With a flow rate of 30lpm and 1" connection, this can be used in a kit with either and automatic or manual nozzle. We offer the full range of AdBlue transfer pumps with all voltages from 12v, 24v, 230v, 110v.

Suitable for the transfer of AdBlue® / Urea / DEF.

We can supply these pumps individually or as part of various kits.

IMPORTANT: These pumps have been designed for intermittent use and a 20 minute duty on/off cycle (to allow the pump to cool down).

Functioning under bypass conditions is only allowed for short periods of time (3 minutes MAX).

Features

- Flow Rate: 30lpm
- 4m delivery hose
- Connection: (In/Out) 1"
- 1.6m suction hose
- Optional K24 flow meter
- Duty cycle: 20 mins on/off

Part Number	Description	Specifications
AB-IBC1000	IBC Pump Kit - Manual 230v	Max Flow - 30lpm 1.6m Suction & 4m Delivery Hose Voltage - 230v Duty Cycle: 20 min on/off
AB-IBC1000-F	IBC Pump Kit - Manual 230v C/W Flow Meter	Max Flow - 30lpm 1.6m Suction & 4m Delivery Hose Voltage - 230v Duty Cycle: 20 min on/off K24 Flow Meter
AB-IBC1000-12	AdBlue Transfer Pump - 12v	Max Flow - 30lpm 1.6m Suction & 4m Delivery Hose Voltage - 12v Duty Cycle: 20 min on/off
AB-IBC1000-F-12	IBC Pump Kit - Manual 12v C/W Flow Meter	Max Flow - 30lpm 1.6m Suction & 4m Delivery Hose Voltage - 12v Duty Cycle: 20 min on/off K24 Flow Meter
